EDUCATION

Rishihood University (Newton School of Technology)

B.Tech, Computer Science

2025 – Present

Sonipat, India

Bhartiya Model School

Intermediate (Class XII), Grade: 80%

2024 – 2025

India

Mount Litera Zee School

Matriculation (Class X), Grade: 92.4%

2021 – 2022

India

EXPERIENCE

Full Stack Developer Intern

SvaNiti Policy Research Center (NGO)

Apr 2026 – Present

Delhi, Remote

- Sole developer for the organization's full-stack website, owning the project end-to-end from architecture through deployment, built with TypeScript covering both frontend UI and backend API integration
- Translated policy research content into a clean, accessible interface for public-facing audiences and built backend APIs for structured data management
- Designed and shipped a custom CMS-style admin content panel so non-technical staff can update site content directly, mirroring core WordPress-style content management workflows and removing the team's dependency on a developer for routine content changes
- Maintain the live, publicly-used site as the sole engineer, handling updates, bug fixes, and performance monitoring on an ongoing basis

Event Coordinator

GDG Rishihood University

Sep 2025 – Apr 2026

Sonipat, Hybrid

- Led planning and on-ground execution for multiple university tech and community events, coordinating logistics and speaker management end-to-end
- Structured cross-functional volunteer teams, defined individual roles, and resolved live event issues in real time under time pressure

Organising Team Member

Society of Advanced Gaming & Esports (Quantica)

Jan 2026 – Feb 2026

Delhi, On-site

- Coordinated esports tournaments across marketing, design, and tech teams; managed registrations and on-ground operations for live events

Super Contributor

Hacktoberfest 2025

Oct 2025 – Jan 2026

Remote

- Contributed to 5+ open-source repositories with 17+ successfully merged pull requests, earning official Super Contributor status

PROJECTS

Weavers | React, Node.js | [GitHub](#) | [Demo](#)

Mar 2026

- Built a full-stack AI-powered freelancing marketplace where clients post projects and freelancers complete them
- AI auto-generates project milestones, verifies completed work, and releases payments through an escrow system

Feedback & Grievance Portal | Node.js, MongoDB | [GitHub](#) | [Demo](#)

Feb 2026

- Built an anonymous grievance portal for a 20–30 member university club, requiring no login, with binary Pending/Resolved tracking
- Implemented admin reply capability and email notifications, enforcing submitter privacy at the backend API level

MerryLand — Restaurant Website | React, JavaScript, Supabase | [GitHub](#) | [Demo](#)

Jan 2026

- Built and sold a commercial restaurant website to a real paying client, featuring an interactive animated background UI

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, React Native, Angular

CMS & Web Platforms: WordPress, WooCommerce, PHP, Elementor, Custom Theme & Plugin Customization

Backend & Databases: Node.js, REST APIs, MongoDB, Supabase, PostgreSQL, Prisma

AI / ML: Machine Learning, NumPy, scikit-learn, LLM-based application development, Prompt Engineering

Tools: Git/GitHub, Open-Source Collaboration, Agile/Sprint Workflows

CERTIFICATIONS & ACHIEVEMENTS

- VisualVortex 2.0 (GDG Rishihood University) — 4th place out of 100+ teams; built a feature for the college portal (Jan 2025)
- MumbaiHacks 2025 — Built ALLURE, a healthcare web app, at a national-level hackathon (Sep 2025)
- Gemini Student Ambassador Program 2026 — Shortlisted by Google
- Typing: 172 WPM peak on Monkeytype — ranked in the top ~12% worldwide (57,535th all-time)
