EXPERIENCE

- Full Stack Developer Intern** · [SvaNiti Policy Research Center](#) Apr 2026 – Present · Remote
 - **Built & deployed:** complete production website solo — Next.js, TypeScript, Tailwind CSS, Framer Motion; live at [svanitipolicy.vercel.app](#).
 - **Backend:** RESTful APIs for dynamic content management; editorial blog/Insights section, scroll-reveal UI, responsive mobile-first layout.
 - **Ownership:** sole developer managing all features, bug fixes, and performance optimizations end-to-end.
- Open Source Contributor** · [GSSoC 2025](#) · [SecuScan](#) 2025 · Remote
 - Contributing features & bug fixes to SecuScan (security vulnerability scanner) under GirlScript Summer of Code 2025 — all merged via reviewed PRs.
- Hacktoberfest Super Contributor** · [Open Source](#) Oct 2025 – Jan 2026 · Remote
 - Merged 17 PRs across 5+ repositories — earned Super Contributor status (top tier of global Hacktoberfest participants).
- Event Coordinator** · [GDG on Campus](#) · [Rishihood University](#) Sep 2025 – Apr 2026 · Sonipat
 - Led planning and execution of multiple university tech events; structured and coordinated 20+ cross-functional volunteers.

PROJECTS

- Weavers — AI-Powered Freelancing Platform** [GitHub](#) · [Demo](#) | *React, Node.js, TypeScript, MongoDB, Claude AI*
 - **Problem:** freelancers and clients lacked a reliable system to auto-scope projects, verify deliverables, and release payments fairly — without any manual oversight.
 - **Solution:** full-stack platform where Claude AI auto-generates milestone plans per project brief, verifies submitted work against requirements, and triggers escrow release on passing.
 - **Impact:** shipped end-to-end solo in 3 weeks — auth, project board, AI pipeline, payment flow — fully deployed and live.
- Feedback & Grievance Portal** [GitHub](#) · [Demo](#) | *Next.js, Node.js, Supabase, Nodemailer*
 - **Problem:** university club (~30 members) had no structured private channel for anonymous grievances — issues went untracked.
 - **Solution:** zero-login anonymous portal with admin dashboard, Pending/Resolved tracking, reply support, and automated email notifications; privacy enforced entirely at the API level.
- MerryLand — Commercial Restaurant Website** [GitHub](#) · [Demo](#) | *React, JavaScript, Supabase, CSS Animations*
 - **Problem:** local restaurant had no digital presence to attract or engage customers.
 - **Solution:** designed, built, and sold a production site with interactive animated UI and Supabase backend to a real paying client — active user traction post-launch.

TECHNICAL SKILLS

Languages	Python, JavaScript (ES6+), TypeScript, Java, HTML5, CSS3
Frontend	React.js, Next.js 14, Tailwind CSS, Framer Motion, Responsive Design, REST APIs
Backend & DB	Node.js, Express.js, MongoDB, Supabase, PostgreSQL, Nodemailer
Tools	Git, GitHub, Vercel, Figma, Postman, VS Code, Linux
AI / Data	Machine Learning, NumPy, scikit-learn, Claude API, Prompt Engineering

EDUCATION

B.Tech, Computer Science (AI/ML) · Rishihood University (NST)	2025 – Present
Intermediate (Class XII) · Bhartiya Model School	2024 – 2025 · 80%
Matriculation (Class X) · Mount Litera Zee School	2021 – 2022 · 92.4%

ACHIEVEMENTS & CERTIFICATIONS

Gemini Student Ambassador 2026	Google — shortlisted nationwide for 2026 cohort.
MumbaiHacks 2025	Largest Agentic AI hackathon (HCLTech) — built ALLURE healthcare app; certified.
VisualVortex 2.0 — 4th / 100+	GDG Rishihood University — built college portal feature under competition.
172 WPM · Top ~12% worldwide	Monkeytype — ranked 57,535th all-time globally.
